Yukon Gold Mining Alliance Hosts Analyst Tour of Yukon Properties

The Yukon Gold Mining Alliance (YGMA) is hosting a number of investment analysts on property visits during a three day, seven stop tour from July 26-29. This continues a series of successful events organized by the YGMA following a launch in Vancouver in February 2010, presentations at the PDAC Conference in Toronto in March 2010 and Investor Forums in Toronto and New York City in April 2010.

The tour will highlight YGMA member companies and their flagship properties. This continues the goal to enhance awareness and present opportunities to invest in the Yukon to the national and international investment community.

The seven members of the YGMA are [Alexco Resource Corp \(TSX:AXR, NYSE-AMEX:AXU\)](#), [Capstone Mining Corp \(TSX:CS\)](#), [Copper Ridge Explorations Inc. \(TSX-V :KRX\)](#), [Golden Predator Corp \(TSX:GPD\)](#), [Northern Freegold Resources Ltd \(TSX-V:NFR\)](#), [Victoria Gold Corp \(TSX-V:VIT\)](#) and [Western Copper Corp \(TSX:WRN\)](#).

“The purpose of the Tour is to give investors a first hand look at what the Yukon and our member companies have to offer,” said YGMA Chair Scott Kent. “Hosting these analysts is key to our success in attracting investment to the Yukon.”

Home of the famous Klondike Gold Rush in the late 1890s, Canada’s Yukon is undergoing a new rush with new mines opening before the end of the year. New exploration is generating excitement throughout the industry as the Yukon is seen as one of the most favourable jurisdictions in the world for investment in the mining industry.

“The YGMA complements the activities already being carried out by individual companies and the Yukon government,” added Kent. “We believe we can achieve more by sharing resources and working together.”

The YGMA intends to host a number of events throughout North America and Europe in the coming months. A series of forums in five different European Cities is currently being organized for learly Fall.

About the Yukon Gold Mining Alliance

The Yukon Gold Mining Alliance (YGMA) is a non-profit industry association with a current membership of seven companies working in Yukon mineral exploration and development. The YGMA's goals include liaising between the mining industry and financing resources, working together to promote awareness of and strengthen investment in member companies and the Yukon, and collectively identifying a group of established companies which are committed to mineral exploration and development in the Yukon.
